

01/19/2024

Dear **OpenAI**,

My Mentor AI is a start-up building an AI-powered educational service to spread worldwide. The founders are among the **IE** alum community, and I have complete trust in their capabilities and passion to create an innovative platform with a far-reaching impact.

I believe in the potential of My Mentor AI to revolutionize education. The platform can also be a tool against climate misinformation due to My Mentor AI's dedication to environmental sustainability education with its United Nations Industrial Development Organization (**UNIDO**) and Investment and Technology Promotion Office (**ITPO**) partners.

Our alumni Erik Dorfman, co-founder of My Mentor AI, has been dedicated to entrepreneurship, attending our Venture Network events and Entrepreneurship Summits.

Please consider their application to the **Converge 2** incubator to enhance the development of the AI-powered educational platform **MMAI** can become.

Sincerely,

Juan José Güemes

Chairman of Entrepreneurship & Innovation Center at IE University
